

OFFICE OF THE DIRECTOR
Approved For Release 2005/03/16 : CIA-RDP80B01554R003300300056-6

Date: 5 January 1979

TO: DCI
FROM: George
SUBJECT: The DDO Personnel Accession Question

REMARKS:

While Fred Janney is updating his personnel dynamics model to try to give you information on how many recruits to bring aboard in the DDO each year, I recommend you give the same problem to the Information Science Center to work independently; to wit:

How many recruits and in what mix of experience/educational background should be accessed each year by the DDO for the next 10 years?

I have talked to [] of the Information Science Center informally and he has discussed it with Harry Fitzwater. Both feel it would be appropriate for the Center to take on a task like this in parallel with the Personnel Office. They have worked on other parts of the problem for John McMahon and feel they have a leg up.

It would give them a chance to demonstrate just what they can do, would give you a second assessment on the problem, and when word gets to Personnel, might get more action from them too.

Suggested tasking memo is attached.
